

REQUEST FOR APPROVAL

To: Ted Rauh
Deputy Director, Compliance and Enforcement Division

From: 
Lorraine Van Kekerix
Branch Chief, Waste Evaluation and Enforcement Branch

Request Date: March 14, 2011

Decision Subject: Scope Of Work And Agreement To Conduct Enhanced Enforcement, Security Assistance, Education, Training, Investigative Assistance, And Surveillance For The Waste Tire Compliance Program (Tire Recycling Management Fund, FY 2010/11)

Action By: March 15th, 2011

Summary: The goal of this Scope of Work is to continue to increase the compliance rates of waste tire haulers and eliminate illegal disposal of waste tires through education and enforcement activities.

In Fiscal Year 1997/98, CalRecycle (formerly the CIWMB) entered into the first in a series of agreements with the California Highway Patrol (CHP) to create a training video on the waste tire hauler regulations which was used to conduct training of law enforcement officers statewide. In addition to the training video, CHP and CalRecycle staff created a reference sheet listing requirements for hauling waste tires and procedures for becoming registered as a waste tire hauler. In FY 1998/99, the scope of the agreement was expanded to include aerial surveillance to identify illegal tire disposal sites. As part of the second agreement, which was approved by the Board at the May 2002 meeting, the CHP began working in cooperation with CalRecycle staff to conduct enhanced vehicle checkpoints throughout the state. The aerial surveillance program and the enhanced vehicle checkpoint activities have continued during FY 2006/07 through a third agreement approved by the Board in April 2005. In 2009 the agreement was expanded to include CHP assisting in conducting legal process service, assist CalRecycle staff in investigations, security details, develop and implement training activities on the waste tire hauler regulations, and perform and support other enforcement-related activities for the CalRecycle, as needed, and along the California Mexico Border Region.

Through this Scope of Work, the CHP will continue with those activities that have been conducted over the last several years. In conjunction with other CalRecycle agreements this agreement will ensure a comprehensive enforcement program relating to waste tire enforcement for hauling and disposal.

The Enforcement and Regulations Relating to the Storage of Waste and Used Tires section of the Five-Year Plan allocates \$370,000 for FY 2010/11 for Waste Tire Enforcement Support Activities. This contract will encumber \$250,000 of these FY 2010/11 funds.

Recommendation: Staff recommends that you approve the Scope of Work for this interagency agreement; the California Highway Patrol as Contractor; and the Interagency Agreement To Conduct Enhanced Enforcement, Security Assistance, Education, Training, Investigative Assistance, And Surveillance For The Waste Tire Compliance Program in an amount not to exceed two hundred fifty thousand dollars (\$250,000).
